

NEUROTOLOGIST BC/BE

Strong growth has led to opportunities for both *newly trained and mid-career physicians* to practice both in our Suburban Community and Main Campus settings.

Opportunities: The Section of Neurotology is seeking a BC/BE Neurotologist with experience to join a busy practice, expanding our ability to deliver world-class care across the entire breadth of neurotology/otology. We have a robust Hearing Implant Program, a quaternary national and international referral base for chronic ear disease and dizziness, and strong collaborative relationships with neurosurgery as well as nationally renowned audiologists. A competitive candidate will have an interest in clinical work, research and education, and a drive towards clinical excellence with compassionate care.

Lifestyle: Located in Cleveland OH, where you can live within a variety of geographic, scenic areas and commute in a hassle-free short distance to your work site. Cleveland is affordable, with a variety of activities, outstanding school systems, and a great place to raise a family.

Explore: Comprehensive professional benefits offered by Cleveland Clinic, the preeminent physician-led health care organization in the nation. We offer a collegial work environment, balanced work schedule, and a competitive salary. These are enhanced by an attractive benefits package including generous CME, medical malpractice coverage and no restrictive covenant.

Grow Professionally: Advance your career interests through collaborative patient treatment with robust resources for professional development including leadership, education, and management tracks. We also offer a formal mentorship and coaching program that only the Cleveland Clinic can provide.

Interested candidates are invited to apply online at:
